DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 12-30.

Election/Restrictions

This application is in condition for allowance except for the presence of claims 12-30 to species which are non-elected without traverse. Accordingly, claims 12-30 have been cancelled.

Allowable Subject Matter

Claims 1-11 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Claim 1 recites "each of the plurality of inlet vanes having a surface that is curved in three dimensions ...". Both Schreier et al(2509172) and Yang et al(5186607) teach a plurality of inlet vanes having a surface that is curved in three dimensions, however neither reference teaches an apparatus for removing particles from a fluid having the structural elements of claim 1. Also , it would not have been obvious to someone of

ordinary skill in the art at the time of the invention to substitute the vanes of Richardson(2201301) or Johnson(2847087) because neither Schreier et al(2509172) nor Yang et al(5186607) teach an apparatus for removing particles from a fluid, therefore someone of ordinary skill in the art would not look to the Schreier et al(2509172) or Yang et al(5186607) references to modify the vane structure of Richardson(2201301) or Johnson(2847087). Claims 2-11 depend on claim 1 and hence are also allowed.
